

# SafeTeen: Professional Development Training Victims Week 2016

---

SafeTeen is a skill-based violence prevention program. It offers gender-specific strategies for managing fear and anger, and gives participants a way of standing up for themselves without violence. Grounded in theory on socialization and gender, these workshops address the roots of violence and expose power dynamics as the underlying factor in harassment, bullying and assault.

## Who Is This Conference For?

Counsellors and therapists; practitioners from transition houses, women's shelters, mental health and social justice organizations, social services, criminal justice, victims services, treatment programs for victims and offenders, or anyone with a vested interest in promoting social justice.

## What Will You Learn at this Conference?

The focus of this presentation for parents and professionals, will be the acquisition of concrete skills - skills to use and to pass on to the teens we live and work with. Skills which empower us as adults and also enable our youth to cope with the verbal, emotional and physical threats that they are exposed to every single day.
