

Strategic Plan Conversation – March 22, 2018
(Based off of CYC's Strategic Plan)

Goal 1: Increasing Inter-Agency Understanding

- Each agency can participate in hosting meetings at their location.
 - This would help with increasing the awareness of their agency/programs.
- Facilitating/coordinating open houses for agencies to participate in.

Goal 2: Becoming a Trauma Informed Community

- Non-violent communication training geared towards service providers (William Klassen)
 - Can we gear something like this towards youth?
 - Human Service Career Enrichment Program (could they play a role in helping this happen?)
- Is our role going to be aimed at engaging youth or service providers?
 - Youth?
 - poor self-esteem;
 - 10% of (this age) feel they have a positive role model in their life;
 - What is being taught in the classrooms?
 - What are youth thoughts/perceptions about trauma?
 - How to engage youth?
 - Next week we will talk about how to gather youth's perception/knowledge of trauma and its effect.

Goal 3: Deepening Reconciliation and Understanding

- May 30 event at building 10 Stolo (bring a youth?) will help give us a better vision for what to do in this realm

Goal 4: Engaging Youth and Parents in Decisions and Programming

- Drop in/Rec Spaces
 - Transportation – how to make transportation safe, accessible, feasible?
 - Inviting youth to each hub meeting
 - Each site could have a team of youth giving vision/direction/input
 1. Sites could collaborate a few times a year?
